Miscellaneous Service Info	-	A Functional Assessment is a structured evaluation designed to measure an individual's ability to perform specific physical tasks related to their job duties or daily activities. It assesses strength, endurance, flexibility, balance, coordination, and overall physical capacity through standardized movements and job-simulated activities. The assessment is performed by a licensed healthcare provider trained in occupational health and is often customized to reflect the essential physical demands of a particular job. The job description must be provided to evaluate specific job tasks.
