

GCSC Safety Connection

Providing Training Solutions to Industry

NOVEMBER 2023

Our 2023 GCSC "Swingin' For Safety" Golf Tournament was a great success! Thank you to all of the participating teams, sponsors, and Cypress Lakes Country Club for hosting. Congratulations to all of our winners!

All proceeds from this year's tournament, over \$20,000, were donated to Mila Spunizo. Mila was diagnosed with Infantile Spasms at 4 ½ months. Infantile Spasms typically occurs in babies younger than 12 months of age. She was having as many as 100 spasms per day. After her 6-week treatment, Mila was seizure-free for only two weeks before her spasms started again. She was started on a new treatment plan and the spasms now seem to be under control, though she does still suffer from occasional focal seizures. After Mila's most recent EEG in March 2023, it was found that she has slowing cerebral dysfunction of the lower, right portion of her brain, caused by her seizures. Mila is now 16 months old and is receiving physical and occupational therapy, as well as continuing to see her Epileptologist on a regular basis. She is still nonverbal at this time, but her family is hopeful she will continue to progress and meet her goals with the help of everyone around her.

"Success in this game depends less on strength of body than strength of mind and character."
- Arnold Palmer
