10 VILLERE DR, DESTREHAN

REGISTRATION & LUNCH
10:00AM

TEE TIME
11:00AM

DINNER & RAFFLE
CONCLUSION

MILA

HELP US
Help Mila

All proceeds will go to local 1 year old Mila Spunizo, diagnosed with Infantile Spasms at 4 ½ months. Infantile Spasms (also known as Epileptic Spasms) are a form of Epilepsy that typically occurs in babies younger than 12 months of age. She was having as many as 100 spasms per day. After her 6-week treatment, Mila was seizure-free for only two weeks before her spasms started again. She started a new treatment plan and the spasms now seem to be under control, though she does still suffer from occasional focal seizures. After Mila's most recent EEG in March 2023, it was found that she has slowing cerebral dysfunction of the lower, right portion of her brain, caused by her seizures. Mila is now receiving physical and occupational therapy, as well as continuing to see her Epileptologist on a regular basis. She is still nonverbal at this time, but her family is hopeful she will continue to progress and meet her goals.
