10 VILLERE DR, DESTREHAN

REGISTRATION & LUNCH
10:00AM

TEE TIME
11:00AM

RAFFLE & PRIZES
CONCLUSION

CHARLOTTE

HELP US

Help Charlotte

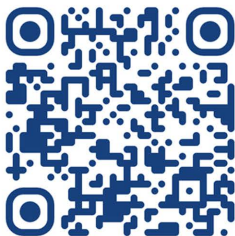

Charlotte Passman has a diagnosis of short bowel syndrome caused by gastroschisis at birth. She also has chronic kidney disease and liver disease. Charlotte initially became a part of the Passman family at 2.5 years old. Her mom is an RN for Our Lady of the Lake Children's Hospital and Charlotte was a patient of hers in the hospital. She was fostered for 19 months before being adopted in 2022. Initially, the family was planning for a triple organ transplant in April of 2022. However, they went to a specialist in Nebraska in January of 2023 for a second opinion and they determined she did not need a transplant and instead needed a corrective intestinal surgery. Although she is doing better, they still have bumps in the road and hospital admissions. "Having a child with special needs brings about unique challenges that require well thought out plans to appropriately deal with them," says Charlotte's mom. "Last year, we made 5 trips to Nebraska for medical care and surgery. We have also had several admissions so far this year locally. My biggest goal for the future is making sure that Charlotte has all that she needs to thrive and be as healthy and happy as she can be."
