Electrical Safety in the Workplace a review of NFPA 70E	08ESW70E	80%	7 hrs.	3 years	\$180 Member \$230 Non-member

Course Description

This course covers NFPA 70E Standard for Electrical Safety in the Workplace®. The course provides essential education on the National Fire Protection Association (NFPA) 70E standard, focusing on protecting personnel from electrical hazards like arc flash, shock, and electrocution. The material covers hazard identification, risk assessment, safe work practices, Lockout/Tagout, and proper PPE selection. The course also covers case studies of electrical incidents that help the attendees to understand the use of NFPA 70E to protect themselves and others. Each attendee will have a copy of NFPA 70E to use during the class.
