11:00AM

DINNER & RAFFLE

CONCLUSION

MADDOX

Maddox Louque, 9, of Lutcher was diagnosed with kidney cancer in 2016 when doctors identified a stage 4 Wilms tumor. Maddox endured 6 weeks of chemotherapy to shrink the tumor and then had a left Nephrectomy. In October of 2016 Maddox was in remission. Sadly, 20 months later in January 2018 Maddox relapsed. In March 2019 he completed round 7 of chemotherapy and received a stem cell transplant at MD Anderson Children's Cancer Hospital in Houston.
