### ***Believe and Live It!***

#### **We need to believe...**

- If I contact an operating machine with my body, I will be injured.
- If I do not follow a life-critical procedure or safety standard, I will be injured.
- If I do not wear my personal protective equipment, I will be injured.
- If I walk up or down a staircase without holding the handrail, I will be injured.
- If I drive while talking or texting on a cell phone, I will be injured.
- If I trust someone else to keep me safe, I could be injured.
- As we recommit to the Drive to Zero, let's all think about beliefs when it comes to safety.
  - What am I doing today that can injure other people (at the time or in the future)?
  - How long can I continue to behave unsafely and narrowly avoid an injury?
  - What do I believe? What do you believe?

***Thought For The Day***

***Don't put yourself in a position to be injured...***

***Expect the unexpected!***
