## ***Preventing Falls in Labs & Offices!***

### **Do you know...**

- Wipe up small spills immediately.
- Keep electrical cords out of walkways.
- Remove rugs/or mats if they are slippery when walked on or don't lay flat.
- Use good lighting.
- Don't carry loads which obstruct your vision
- Don't lean back excessively in chairs.
- Use stepladders properly
- Walk slow around corners
- Use handrails when climbing up stairways
